LOOKING AHEAD: EXAMINING EYE HEALTH AND DISEASE

Tuesday evenings, October 7 - December 2
7:00 to 8:30 p.m., Main Campus, 513 Parnassus Avenue
By popular demand, Mini Med offers a course this fall - looking at new discoveries in eye health and disease through the eyes of leading faculty from UCSF’s Department of Ophthalmology! Topics will focus on a wide range of areas in the field of ocular function and research, including ocular function, glaucoma, cataracts, macular degeneration, diabetes and even eye surgery! So if you have a desire to learn about all things eye-related, from nationally recognized speakers involved in one of the most active vision science programs in the country, this course is for you!

COURSE CO-CHAIRS:
Shan Lin, MD – Director, Glaucoma Service; Professor of Clinical Ophthalmology
Daniel M. Schwartz, MD – Professor of Clinical Ophthalmology

The Kids Are All Right: Adolescent Health Care

Wednesday evenings
October 7 - November 19
7:00 to 8:30 p.m., Main Campus, 513 Parnassus Avenue
This course is for everyone who wants to learn more about those important years from puberty to adulthood, and will appeal to a wide range of people including healthcare providers as well as community members!

This course is taught by high school students in the WeLong learners, with an intriguing mind about adolescent health. Along the way, their faculty will take you on a journey through the teen topics of eating behavior, smoking and substance use, adolescent development, sexual activity, depression and bullying, chronic vision care and the series will even include an update on health care policy concerning adolescents. Come and learn from the world’s foremost physicians and researchers in their various fields of expertise concerning the younger population!

COURSE CHAIR:
Carolyn Bradner Jasik, MD – Assistant Professor of Pediatrics

Developmental Disabilities: From the Front Lines

Thursday evenings
October 9 - November 20
7:00 to 8:30 p.m., Main Campus, 513 Parnassus Avenue
This course features information on select developmental disabilities and service delivery systems and is presented by clinicians and speakers from the popular and annual UCSF conference, Developmental Disabilities: Update for Health Professionals, now in its 14th year. From autism to syndromes to seizures, developmental disabilities are discussed along with history, progress in current diagnosis and treatment. In addition, the course also features the topic of telemedicine applications for better access to health and dental care for people with disabilities in community settings. Come, hear more, and have the chance to interact with our esteemed faculty of clinicians and researchers on the special health care needs and considerations of people with developmental disabilities.

COURSE CO-CHAIRS:
Lucy R. Crain, MD, MPH, FAAP – Clinical Professor of Pediatrics (Emerita), UCSF School of Medicine; Adjunct Clinical Professor of Pediatrics, Stanford University
Geraldine Collins Bride, RN, MS, ANP, FAAN – Clinical Professor and Vice-Chair, Department of Community Health Systems, UCSF School of Nursing
