

SPORTS MEDICINE: EXPERT TREATMENTS FOR OPTIMUM ACTIVITY

Tuesday evenings,
February 4 – March 11
7:00 to 8:30 p.m., Main Campus,
513 Parnassus Avenue

Designed for the weekend warrior and those that love them, this series will explore common injuries, approaches to avoid them, and treatments for when they occur. Whether you are a casual walker or a competitive athlete, this series will provide practical information to maximize your body's performance. Topics that will be covered include concussions and head injury, stress and overuse injuries, health of knees, shoulders and other joints, novel approaches to improve joint function, and replacement of the injured joint when other strategies have been exhausted. Step inside the world of the sports physician and improve your performance!

COURSE CHAIR:

Anthony Luke, MD, MPH, Professor and Director of Primary Care Sports Medicine

MEDICAL DETECTIVES: INSIDE THE MIND OF GREAT PHYSICIANS

Wednesday evenings,
February 5 – March 12
7:00 to 8:30 p.m., Main Campus,
513 Parnassus Avenue

Ever want to be a detective and solve mysteries, conundrums, and enigmas? This course will teach you how physicians at UCSF function as detectives, solving strange illnesses, rare diseases, new infections and unexpected poisonings using their knowledge, deductive reasoning, and data gathering. Climb inside the mind of a medical detective and see how it works – how they obtain clues, synthesize data to formulate a hypothesis, and select and interpret their tests based on these hypotheses.

COURSE CHAIRS:

Jeffrey A. Tabas, MD, Professor of Emergency Medicine; Director of Outcomes and Innovations, Office of Continuing Medical Education

Malini K. Singh, MD, Assistant Professor of Emergency Medicine; Medical Director, San Francisco General Hospital Emergency

The Philip R. Lee Institute for Health Policy Studies is co-sponsoring this Health Policy series with the UCSF Osher Center for Integrative Medicine

HEALTH REFORM AT THE CROSSROADS: HOW WE GOT TO THE ACA AND WHERE WE GO FROM HERE

Thursday evenings,
February 6 – March 13
7:00 to 8:30 p.m., Main Campus,
513 Parnassus Avenue

In light of national initiatives to deliver and transform health care services as efficiently and effectively as possible, Drs. Yelin and Coffman have put together a course on cutting-edge issues concerning health reform. Topics will include what made health reform necessary, competing proposals that existed before the Affordable Care Act (ACA) was passed, and what the ACA is all about! In addition, the course will explore how health reform is being implemented in California and San Francisco; and the impact on various population groups – including those with poor coverage before. Other areas of the course will explore the impact of health reform on institutions like UCSF and the University of California system-wide, as well as Kaiser Permanente, the Palo Alto Medical Foundation, and the safety net institutions and providers. Finally, the course will wrap up with a session on how to evaluate whether health reform and the ACA is working. If you want to learn more about health reform, and the challenges that lie ahead to advance the science of health care delivery and public health – this course is for you!

COURSE CHAIRS:

Edward Yelin, PhD, Professor of Medicine and Philip R. Lee Institute for Health Policy Studies

Janet Coffman, PhD, Associate Professor, Department of Family and Community Medicine and Philip R. Lee Institute for Health Policy Studies

February 4

SPORTS CONCUSSION 2014

Carlin Senter, MD
Assistant Professor
UCSF Department of Orthopaedic Surgery

February 11

OVERUSE INJURIES

Anthony Luke, MD, MPH
Professor and Director
Primary Care Sports Medicine
UCSF Department of Orthopaedic Surgery

February 18

WHAT'S NEW IN SHOULDER CARE

Brian Feeley, MD
Assistant Professor, UCSF Department of Orthopaedic Surgery
Fellowship Director, Sports Medicine
Sports Medicine and Shoulder Surgery
UCSF Department of Orthopaedic Surgery

February 5

THE REAL CSI: FORENSIC PATHOLOGY & DEATH INVESTIGATION

Judy Melinek, MD
Associate Clinical Professor, UCSF Dept. of Pathology and Forensic Pathologist,
Alameda County Coroner's Office

February 12

LABORATORY MEDICINE

Alan Wu, PhD
Professor, Lab Medicine

February 19

DERMATOLOGIC DETECTIVES

Erin Mathes, MD
Assistant Professor of Dermatology and Pediatrics

February 25

CURRENT TOPICS IN JOINT REPLACEMENT AND ARTHRITIS CARE

Erik Nathan Hansen, MD
Assistant Professor
UCSF Department of Orthopaedic Surgery
Division of Adult Reconstructive Surgery

March 4

CARTILAGE PROCEDURES

Benjamin Ma, MD
Associate Professor
Chief, Sports Medicine and Shoulder Service
UCSF Department of Orthopaedic Surgery
