HIGH VALUE MEDICAL CARE: WHY SOMETIMES LESS IS MORE

Tuesday evenings, February 9 - March 15 7:00 to 8:30 pm **UCSF's Mission Bay Campus** Genentech Hall 106 600 16th Street (Byers Auditorium), San Francisco, CA 94158

If some medical care is good, more must be better. Right? Unfortunately, this is often not the case. In fact, the opposite can be true—some measures of health are worse in areas where people receive more health services. This course developed by UCSF professors, who are renowned leaders in research and health policy and the leaders of the UCSF Center for Healthcare Value, will highlight situations in which the overuse of medical care may result in harm and in which less care is likely to result in better

Rita F. Redberg, MD, MSc - Professor of Medicine, Division of Cardiology, UCSF; Editor, JAMA Internal Medicine

Deborah Grady, MD - Professor of Medicine; Associate Dean of Clinical and Translational Research; Interim Director, Clinical and Translational Science Institute, UCSF; Editor, JAMA Internal Medicine

February 9

CANCER SCREENING

George Sawaya, MD Professor of Obstetrics, of Gynecology and Reproductive Sciences and of Epidemiology & Biostatistics, UCSF

MENOPAUSE AND BEYOND: A PRIMER ON SEXUAL, PHYSICAL AND MENTAL HEALTH FOR WOMEN AND THOSE WHO LOVE THEM

Wednesday evenings, February 10 - March 23 (No session on March 2) 7:00 to 8:30 pm UCSF's Mission Bay Campus, Genentech Hall 600 16th Street (Byers Auditorium) & Mission Hall, Room 1400, 550 16th Street San Francisco, CA 94158

COURSE CHAIR:

Jeannette Lager, MD - Assistant Professor, Department of Obstetrics, Gynecology & Reproductive Science, UCSF Assistant Professor, Department • PELVIC FLOOR: MORE TO COME! of Obstetrics, Gynecology & Reproductive Science, UCSF Assistant Professor, Department of Obstetrics, Gynecology & Reproductive Science,

Presented by UCSF faculty from the Women's Health Center, Osher Center for Integrative Medicine and the Department of Urology and Internal Medicine (all of which are recognized internationally for their expertise in providing comprehensive care), this course will address both comprehensive and integrative approaches in women's health. Often it's hard to find time to explore these issues in an interactive forum – now is the time for you to make some time.

Women's health needs are unique and cover a wide spectrum over the course of a woman's life. This outstanding series on women's health will explore menopause and beyond: a primer on sexual health in women and men, physical health and mental health.

- SEXUAL HEALTH
- MENOPAUSE
- MILD COGNITIVE IMPAIRMENT
- INCONTINENCE
- NUTRITION AND WOMEN'S HEALTH: MAKING SENSE OF NEW **GUIDELINES AND THE CACOPHONY OF EXPERT ADVICE**

PAIN: **NEW INSIGHTS AND NEW (AND OLD) TREATMENTS**

Thursday evenings, February 11 - March 17 7:00 to 8:30 pm UCSF's Mission Bay Campus, Genentech Hall 600 16th Street (Byers Auditorium) & Mission Hall, Room 1400, 550 16th Street San Francisco, CA 94158

Chronic pain affects about 100 million American adults—more than the total affected by heart disease, cancer, and diabetes combined! Despite its prevalence, massive financial burden and widespread association with disability, the effective management of pain remains a modern day challenge. This six-part series will help address the multifaceted aspects of pain management by embracing a historical perspective of analgesic discovery and presenting the scientific basis of pain therapies including: psychological, pharmacologic, neck and back, integrative medicine, and new technologic approaches.

COURSE CHAIR:

Mark Schumacher, PhD. MD - Professor and Chief, Division of Pain Medicine, Department of Anesthesia and Perioperative Care, UCSF

February 11

BACK TO THE FUTURE OF PAIN MEDICINE

Mark Schumacher, PhD, MD Professor and Chief, Division of Pain Medicine, Department of Anesthesia and Perioperative Care, UCSF
